SUCCESS STARTS AT THE UA TECH PARK

As a major employment center in Tucson, The UA Tech Park has partnered with the Tucson Urban League and Pima County Youth One Stop to help prepare local high school students for the future. Students can participate in highly engaging career readiness workshops focused on soft skill development, skills that are imperative for employers. Taught by seasoned industry professionals, these workshops offer students a competitive edge. High school juniors and seniors are encouraged to attend! Students who complete at least 8 workshops may apply for an internship at the UA Tech Park or with a local partner.
