Our Brand Promise

SUPERIOR INFRASTRUCTURE + OPERATIONAL EXCELLENCE + PEOPLE WHO DELIVER
Deep Expertise

Industry
- Involta has extensive experience serving clients in healthcare, IT Services, financial services, manufacturing industries and many other enterprises.

Technology
- Our team’s specialties span the IT stack, allowing us to handpick a team with expertise specific to your needs.
- Over 30 professional services engineers certified with leading solutions providers like Cisco, Microsoft®, Citrix, VMware and EMC, plus experts in LAN and WAN, virtualization, fiber services, cybersecurity (CISSP) and more.

Compliance
- We have guided clients through successful compliance audits related to numerous standards, including SSAE 16, HIPAA, GLBA, JSOX and SOX.
- Involta’s internal control processes and data center facilities are audited annually against the demanding SSAE 16 standard and based on an ITIL.
Smart Investment

- Reduce cybersecurity risk profile
- Reduce IT infrastructure capital expenditures
- Avoid financial devastation from a disaster
- Reduce data and system recovery time
- Increase business agility with scalable capacity
- Improve productivity with greater IT reliability and availability
- Increase your companies up time and availability more cost effectively
Strategic Partner

- IT Partner, not vendor
- End-to-end / full-stack capabilities
- Here for you 24/7/365
- Ability to provide world class data centers
- Ability to provide highly available and highly secure CompliantCloud solutions
- Deep team of technical resources for consulting and implementation
- Connectivity to our national footprint
- Experienced and trusted partner in our industry
BACK TO INVOLTA
More than 242 megawatts (MW) of community-scale solar capacity, enough to serve 50,000+ homes

More than 150 MW of customer-sited distributed generation (DG)

History of solar energy innovation
  - Record-setting Springerville array
    - Est. 2001
    - Once was largest in Western Hemisphere @ 4.6 MW
  - Community solar program pioneer
  - “Solar Zone” at UofA Science and Tech Park
    - 23 MW
    - 7 different technologies and manufacturers
  - TEP-Owned Residential Solar Program
    - 1st-of-its-kind fixed tariff program

National recognition
  - Solar Electric Power Association (SEPA) 2012 Investor Owned Utility of the Year
  - SEPA’s Top 10 Solar Utility in Nation
  - 2015 SEPA Solar Champion Award
(2) 10MW 2.5MWh Utility-Scale Battery Storage
Grid Resiliency through Frequency Response

University of Arizona Science & Tech Park
